(54) Title: SYSTEMS AND METHODS OF SAMPLE PROCESSING AND TEMPERATURE CONTROL

(57) Abstract: Systems and methods of sample processing and temperature control are disclosed. Specifically, the present invention provides temperature control in relation to sample processing systems and methods of processing samples. Some embodiments provides temperature control for sample carriers and processing materials, such as reagents. Corresponding systems and devices are disclosed, including sample processing systems (1) (Fig. 10), sample carrier temperature regulation systems, reagent temperature regulation systems, sample processing control systems, and temperature regulation devices. The present invention in particular applicability to the fields of immunohistochemistry, in-situ hybridization, fluorescent in-situ hybridization, special staining, such as special staining of histological samples, microarray sample processing, and cytology, as well as other chemical and biological applications.

Box I Observations where certain claims were found unsearchable (Continuation of Item 1 of first sheet)			
This into	rnational report has not been established in respect of certain claims under Article 17(2)(a) for the following reasons:		
1.	Claim Nos.: because they relate to subject matter not required to be searched by this Authority, namely:		
2.	Claim Nos.: 5 because they relate to parts of the international application that do not comply with the prescribed requirements to such an extent that no meaningful international search can be carried out, specifically: Please See Continuation Sheet		
з. 🔀	Claim Nos.: 19,35,36 and 85-95 because they are dependent claims and are not drafted in accordance with the second and third sentences of Rule 6.4(a).		
Вох П	Observations where unity of invention is lacking (Continuation of Item 2 of first sheet)		
This Inte	rnational Searching Authority found multiple inventions in this international application, as follows:		
1.	As all required additional search fees were timely paid by the applicant, this international search report covers all searchable claims.		
2.	As all searchable claims could be searched without effort justifying an additional fee, this Authority did not invite payment of any additional fee.		
3.	As only some of the required additional search fees were timely paid by the applicant, this international search report covers only those claims for which fees were paid, specifically claims Nos.:		
4.	No required additional search fees were timely paid by the applicant. Consequently, this international search report is restricted to the invention first mentioned in the claims; it is covered by claims Nos.:		
Remark	on Protest The additional search fees were accompanied by the applicant's protest. No protest accompanied the payment of additional search fees.

Form PCT/ISA/210 (continuation of first sheet(1)) (July 1998)

INTERNATIONAL SEARCH REPORT	PCT/US03/40880				
Continuation of Box I Reason 2: Applicant's claim 5 is unclear to the point that no reasonable meaning can be derived from the language. Reference is made to the method of claim 1; however, reference to a particular step is omitted. Instead, claim 5 is directed to the step of corresponding to at least one temperature tolerance. It is not clear what the step of corresponding was meant to refer to, but additionally, it is not clear what was intended by "at least one temperature tolerance." It is not clear what is tolerating the temperature. Therefore, no discernible meaning can be withdrawn.
